Boccia Canada through the Canadian Cerebral Palsy Sports Association (CCPSA) is carefully following the evolution of the coronavirus (COVID-19) and how it may impact the AAP carding criteria from January 1st 2022 to December 31st 2022.

**With the approval of Sport Canada the Canadian Cerebral Palsy Sports Association reserves the right to modify the present published AAP criteria based on the situation and the best available informations.** If needed, any modifications will be made as promptly as possible and will be communicated to all affected individuals as soon as possible.

We already know that a fair and reasonably complete evaluation of the athletes will not be possible in advance of the 2022 carding cycle (January 1st 2022 to December 31st 2022). Considering the situation the following process will be used to determine the nominations of athletes for carding in 2022 :

- During the period from January 1, 2022 to January 31<sup>st</sup> 2022, if this is feasible and to assess High Performance Capacity (priority 5) en route to Paris 2024, various assessments will be made with athletes.
- The assessments to be made may include the results of games and the monitoring of technical data in training or in competition.
- During this period athletes from across Canada might be invited to participate in the evaluation process.
- Following the evaluation process the available cards are going to be distribute and they will be retro-active as of January 1<sup>st</sup> 2022.
